Doctor, K. Bauman;
DOE Defendants
1-5

Declaration of William S. Aholelei

Comes Now William S. Aholelei, Pro Se and In forma Pauperis. Declare under the Penalty of Law that the foregoing is true and correct.

Introducing exhibits A-1, A-2. This is a description of the procedure which is the old fashion methods. I had described in my complaint and is the most extremely painful methods imaginable. I would compare it to someone using a Coat hanger and shoving it up the pee hole and jacking it around your kidney!

Man that wasn't bad enough! I had to go thru it twice! After the procedure, I was returned to Halawa and the medication given at the hospital wore off!

Just imagine of how bad my pain was! When the medical unit gave me nothing to ease my pain and this went on for days without pain medication while bleeding for days!

Exhibits A-3 and A-4 shows the size's of stones in my kidney!

There were four (4) Big stones the size of a pigeon egg! This is why? DR. Kuchenbecker prescribed the Shock Wave the proper treatment for my medical problems! But the Defendants deliberately or otherwise denied that! but rather ask the specialist to perform a lesser expensive treatment for my serious medical needs! I could lost my life because of this deliberate indifference to my serious medical needs!

Exhibits A-5, A-6 are picture of less than a half of stones that passed out of me! With no pain medication from Defendants and had been asking for help!

Exhibits A-7, A-8 Stones still exists and continuations of my pains and sufferings!

It tooks me a year or more of pains
and continces complaints to convinced
defendants to tak notice of me and the
pains I went through and still is exper-
iencing because of their deliberate
indifference to my medical needs!

Respectfully Submitted!
